

Security Luminaires

COLDSTREAM – Bulkhead/Wall Pack - Exterior Lighting Range

- Reeded polycarbonate lens
- Cast alloy flat slimline body
- Vandal resistant luminaire
- Excellent Photometric performance

Description

The COLDSTREAM BULKHEAD range of exterior IP65 luminaires is suitable for many external lighting applications. The cast alloy body is available in black textured finish as standard.

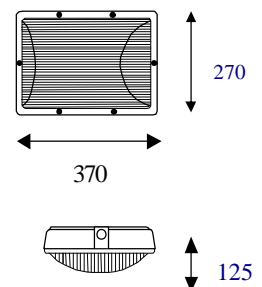

The Polycarbonate reeded lens is held in place by six high security bolts and is extremely resilient to attack. The lens is sealed to the body with a neoprene gasket to give IP65 protection. The geartray is manufactured from mild steel, painted white and acts as a reflector. It is also removable for ease of maintenance. Versions are available using high efficacy discharge and compact fluorescent lamps. The advantage of the latter is that they produce virtually instantaneous light as well as having a long life.

Luminaires in this range are designed to comply with BS EN 60598 and are suitable for operating in exterior applications. Each luminaire also complies with European Directive 89/336/EEC and carries the CE mark.

PRODUCTS AVAILABLE

Catalogue No.	Description
COL 50S	50W high pressure sodium
COL 70S	70W high pressure sodium
COL 218PL	2x18W PLL compact fluorescent
COL 282D	28W 2D compact fluorescent
